6. Safely construct a project

Assessments

Students must achieve no less than 80% or B for a final grade in the high school course to receive ACC. Students will need to register for the college class but at a lowered tuition rate.

ACC Concept

Through Articulated College Credit (ACC), specific college curriculum content goals and assessments are embedded in participating high school career and technical education (CTE) programs as specified in this agreement. Relevant knowledge, skills, and standards are taught by qualified CTE high school instructor(s) in one or more high school course. ACC is awarded if the student meets the college equivalency standards and later enrolls in the college(s) listed below requiring the course in a specific program.
